

## Children First Fund

### Rotary's Gift of Play

Dr. Lawrence Jones, of the Rotary Club of Guelph Charitable Foundation presents to Family & Children's Services Executive Director, Daniel Moore, a cheque in support of Children First Campaign pledge to build the outdoor play area at the Agency's new head office.

Family & Children's Services provides support to over 400 families at any one time and care for over 200 children/youth. There are many occasions when families, children and youth need to be in our office and having a safe, enjoyable outdoor space for them to be together or to informally meet with staff supports the focus of the Agency's work.

The play area which has been designed by EarthArtist Planning and Design was built by Forestell Designed Landscape. The area incorporates tiled and grass play sections, a gentle slide, a sand pit, a horizontal climbing wall and a family picnic table.
